Dear Mr. Hollingshead:

Re: Variance Request, Jensen Quarry, U.S. Gypsum Company, M/041/008,
Sevier County, Utah

This letter is to confirm the phone conversations I have had with you since your variance request submitted on August 25, 1988. As I have previously indicated to you, the dumping variance you have proposed is acceptable to the Division.

As a standard procedure, I contacted the Utah State Department of Health to review your proposal and check on their requirements. Health determined your waste product to be solid waste rather than hazardous waste.

Enclosed is a copy of the Utah State Department of Health, Division of Environmental Health, Solid Waste Disposal Regulations. I suggest you mention the approval of this Division when you submit for approval from Environmental Health. It may expedite the process. We will need a copy of the approval letter from Environmental Health when you receive it.

Please call me if you have any questions or run into any problems. I wish you continued success in your operation.

Sincerely,

Scott Johnson
Reclamation Engineer
